

# Sprint 5 Plan

SlugTrade

## Team Members

**Product Owner:** -

**Scrum Master:** -

**Team:** Emma Gomish

## Scrum Meeting Times

**Daily:** 9:00AM-9:15AM

## Sprint Goal

Prepare the repo for solo work; create wireframes for the frontend pages.

## User Stories

- I. As a developer, I want to create a new repo so that I don't use the shared repo. **[4]**
  - A. Create new repo on GitHub **(1 hour)**
  - B. Set remote repo to new GitHub repo **(1 hour)**
  - C. Flatten documentation directory **(1 hour)**
  - D. Create startup scripts directory **(2 hours)**
  - E. Find and remove unused files **(1 hour)**
  - F. Migrate bugs from old repo to new repo **(1 hour)**
- II. As a developer, I want to remove copyrighted material (logo and gifs) from the site so that I avoid distributing material I don't hold the copyright to. **[2]**
  - A. Replace copyrighted logo with homemade logo **(3 hours)**
  - B. Replace gifs with non-copyrighted static images **(4 hours)**
- III. As a designer, I want to create wireframes for under-designed frontend elements. **[16]**
  - A. Create wireframe for item 'cards' **(3 hours)**
  - B. Create wireframe for "Profile" page (profile / wishlist / closet) **(6 hours)**
  - C. Create wireframe for "Products" page **(2 hours)**
  - D. Create wireframe for "Add Closet Item" page **(2 hours)**
  - E. Create wireframe for "Offers" page (offers received / offers placed) **(4 hours)**
  - F. Create wireframe for "Item Details" page **(3 hours)**

## Initial Task Assignments
